

# CampUniQ 4 you?

**With the Minicamper CampUniQ you can combine family, business and holiday use in one compact, robust and sporty vehicle. It has everything you could expect from a camper and also complies with all fiscal requirements that apply to campers allowing you to drive all year round for a favourable vehicle ownership tax rate.**

The Minicamper CampUniQ is a unique concept that is ideal for today's market in which economical and eco-friendly are key words. The camper interior is installed in a second-hand Ford Connect, Fiat Doblo or Opel Combo. This avoids the considerable expense of a new camper and lets you drive comfortably in a powerful and eco-friendly Common-Rail or Multijet diesel. Of course, if you prefer it is possible to install the CampUniQ interior in a brand-new car. This two-person camper has all the home comforts, including gas heating, a refrigerator, a kitchen with sink and a gas stove with two burners. The CampUniQ also has several ingenious features. For instance, the kitchen can be used either inside or outside. The handy elevating roof provides extra headroom as well as extra light

through the windows, which can be darkened. The CampUniQ is easy to park and is fuel-efficient. More information can be found via [www.minicamper.nl](http://www.minicamper.nl) or [www.campuniq.nl](http://www.campuniq.nl)

**A Minicamper CampUniQ offers you freedom, comfort and luxury.**

You can cook inside or outside.

Comfortable seating and sleeping for two people.

## CAR

The Ford Connect (2007 to 2014 incl.) and Fiat Doblo / Opel Combo (2011 to new) models selected exclusively for the installation of the Minicamper CampUniQ are longer and/or higher models with TDCI / Multijet engines, 90, 105-110 and 135 h.p. The standard version has five gears and the Doblo/Combo is also available with six gears or automatic transmission. Engine air conditioning is optional. Cars that have been converted to campers and reassessed by the Dutch Road Transport Directorate and the Dutch Tax Authorities in the vehicle category M1SA, which denotes a camper van, have two authorised seats and the transportation of extra passengers in the camper section of the vehicle is not permitted.

## TAX

The Minicamper CampUniQ is registered with the Dutch Road Transport Directorate and the Dutch Tax Authorities in the vehicle category M1SA, which denotes a camper van.

## PRICE

The Ford Connect CampUniQ from construction year 2007 costs € 25,500 and the Fiat Doblo or Opel Combo CampUniQ from construction year 2011 costs € 39,250, including delivery costs, VAT at 21% and Dutch vehicle registration tax (BPM). **BPM DOES NOT HAVE TO BE PAID ON VEHICLES INTENDED FOR EXPORT. DEPENDING ON THE AGE OF THE BASIC VEHICLE THIS REDUCES THE PRICE BY BETWEEN € 2,000 AND € 6,000!** The basic colour is white. For other colours, including metallic, a surcharge of € 1000 applies. For newer or completely new Minicampers the prices are adapted accordingly and can be found on our website. It is also possible for us to install the CampUniQ interior in a currently owned or privately purchased Connect L2H2, Doblo Maxi or Combo L2. The prices for a completely fitted interior including all appliances, windows and elevating roof start at € 17,000 for the Connect and € 22.000 for the Doblo/Combo.

## ACCESSORIES

Set of 16 or 17 inch sporty light metal wheel trims with tyres € 1,400. Tow hook including assembly € 775. Set of thermal insulation mats for cabin windows € 145. Side roof canopy with zips (205 x 150 cm) including roof rail assembly € 425. Side roof canopy including 2 removable sides and including roof rail assembly € 725. Back roof canopy triangular model (110 x 295 cm) including roof rail assembly € 395. Vaude (free-standing) closable lightweight back tent € 575. 2.8 kg CampingGaz gas bottle € 135. On-board battery with charger and relay € 550. Fiamma portable toilet € 100. Set of cabin floor mats € 100. Bearlock anti-theft gear lock € 625.

## INSURANCE

The Minicamper CampUniQ is generally insured with a comprehensive (all-risk) insurance policy. Camper insurance specialist Safetrip offers a reasonably priced insurance policy for campers. We can arrange this on your behalf if you wish. Safetrip calculates the premium on the basis of your no-claims discount with your current camper/car insurance company.

## DELIVERY TIME

The average delivery time is 10 weeks after ordering and is determined partly by the availability of the desired basic vehicle.

## GUARANTEE

The automotive components of a used Ford Connect / Fiat Doblo / Opel Combo are covered by a three-month guarantee, which includes labour costs. In the case of a new basic vehicle the manufacturer's warranty applies. The entire interior, including all appliances, elevating roof and accessories and also including labour costs, is covered by a six-month guarantee. In addition, all new appliances come with a manufacturer's warranty.

## EXCHANGE

It is possible to part-exchange your current camper/car at the prevailing trade purchase price.
